FALL TRADE LOOMING UP

PROSPECTS BRIGHT FOR GOOD BUSINESS

Weekly Review of Trade Conditions Show Many Features Most Promising for Active Dealing.

New York, Aug. 18.—Bradstreet's says: Fall trade, while not yet under full headway, is steadily gathering force. Combined cereal yields will probably exceed all past years, both in quantity and quality. Relatively high prices for agricultural products, manufactured materials and staple products do not deter buying operations. Collections on the whole have improved slightly. Currency shipments to the country are increasing, but there is no particular effect on money rates as yet. The features at eastern centers are activity of cotton goods and advances in many makes.

Railway operations are swelled by the large crop and industrial movement, which are of very full volume. Iron and steel trade advances are, if anything, rather more encouraging.

Wheat, including flour, exports for the week were 1,000,000 bushels, against 1,700,000 last year; exports from July 1 to date were 8,307,000 bushels, against 9,550,000 for same period last year.

Corn exports for the week were 1,177,000 bushels, against 520,000 bushels a year ago; from July 1 to date the exports were 7,677,000 bushels, against 3,750,000 in 1904.

DUN'S REVIEW.

The assurance of prosperity on the farms generates confidence in all departments of trade and industry. Contracts are placed for distant delivery and commercial payments are more prompt. It is also gratifying to note that pending and threatening labor controversies are less numerous; a higher scale was adopted at the glass factories, and the attractive wages paid harvest hands have reduced the ranks of unemployed to a minimum. The jobbing trade is brisk, especially in dry goods, and all large cities report full attendance of outside buyers. Prices are well sustained by a brisk demand. Mills and factories are well employed, little idle machinery being noted in prominent industries.

Railway earnings thus far reported for August exceed those of last year by 6.6 per cent, and foreign trade at this port for last week showed a gain of \$2,704,500 over the exports of a year ago, and an increase of \$322,957 in imports. It is becoming a year of superlatives in the business world; prices of sixty of the most active railway securities have reached the highest point on record; the output of pig iron for the first half of 1905 exceeded every full year prior to 1893; prices of hides are at the highest position since the civil war; wool quotations have not been as strong since the early eighties; shipments of footwear from Boston are close to the maximum, and, including all shoe centers, the movement this year is beyond all precedents; foreign commerce in July surpassed the corresponding month in any previous year. Bank exchanges at New York for the week were 88.9 per cent larger than last year, and at other leading cities the gain averaged 15.1 per cent.

ROOSEVELT'S SON GOES WEST.

Oyster Bay, N. Y., Aug. 18.—Kermit Roosevelt, second son of the president, left to day for Deadwood, S. D., on a visit to Capt. Seth Bullock, superintendent of the Black Hills forest reserve. Kermit is taking the trip alone.

TRIED TO KILL FLIES.

Cincinnati, Ohio, Aug. 18.—As a result of spraying their bodies with a disinfectant to destroy fleas, Ernest A. Graham and Alva Cain are in a serious condition and may die. Since the first regiment returned from Vicksburg, Miss., the army has been infested with fleas brought from the south by the soldiers. Graham and Cain took the contract to disinfect the army.

KILLED DAUGHTER AND SELF.

Pueblo, Colo., Aug. 18.—Frank Ward, foreman of the yard gang at the Pueblo Steel works, has caused the death of his daughter Frances, aged 16, by forcing her to swallow a quantity of poison and then committed suicide by using the same drug.

KILLED A POACHER.

Berlin, Aug. 18.—Baron Speck von Sternburg, brother of the German ambassador at Washington, shot and killed a female poacher at midnight last night in mistake for deer. Sternburg voluntarily surrendered to the police and has been released on bail.

HANGED HIMSELF.

Botzen, Tyrol, Austria, Aug. 18.—Jori, the anarchist, who was arrested while meditating an attempt on the life of Emperor Francis Joseph during the emperor's forthcoming visit to Boston, hanged himself in prison to day. When arrested Jori had two revolvers and a bomb.

FEVER REPORT

Not Much Change in the Situation and the Outlook Bright.

New Orleans, La., Aug. 18.—Official report up to 6 p. m.:
New cases, 63.
Total cases to date, 1,285.
Deaths, eight.
Total deaths to date, 188.

New Orleans, Aug. 18.—While the number of deaths to day from yellow fever exceeded those of each of the past two days, the total is so small in comparison with years when real epidemics prevailed, that the situation continues to be regarded as infinitely more bright and hopeful than a month ago, when it was first known that the yellow fever had taken a firm grip in one of the most thickly populated sections of the city. Nothing at present indicates any change from the present mild form of the disease and the health authorities are inclined to believe that so thorough are preparations already made for the future that, barring entirely unexpected conditions, there is no further occasion for alarm. Reports from the emergency hospital indicate a steady improvement there.

WORK STOPPED BY MAYOR.

Chicago, Aug. 18.—Practically all construction work on the underground tunnels of the Illinois Tunnel company was stopped to day by order of Mayor Dunne, and no work will be permitted to go on until the company devises some method of constructing its connections by passes and drifts to prevent danger of sinking of buildings and settling of streets.

KENTUCKY BATTLE.

Pittsfield, Ky., Aug. 18.—In the second meeting of the feud clans of Mullins and Flemings at the Fletcher county line, Monroe Seward, a member of the Mullins faction, was killed and Henry Mullins dangerously wounded. Creed Vanover, a member of the Flemings faction, was slightly injured.

STORM AT TOPEKA.

Topeka, Kans., Aug. 18.—A terrific wind storm accompanied by heavy rain prevailed here early to day, the wind blowing at the rate of fifty miles an hour. The buildings of Crosby & Co., the Shawnee Mills and the Crawford opera house were unroofed. Many residences were damaged and other damage wrought, but no one was injured.

FAILED TO IDENTIFY.

Plymouth, Mass., Aug. 18.—The Chicago men, who came here to day to see George L. Marsh, as the mysterious "Mr. Dove," failed to identify him as the man wanted in Chicago in connection with the murder of William Bates last November.

PLOT TO KILL

A prominent London man seeks to rid himself of wife by paid assassin.

London, Aug. 18.—A great sensation has been created by the arrest of Hugh Watte, a financier and formerly member of parliament for the Glamorgan division, Glasgow, on the charge of attempting to procure a private detective to assist in the murder of his former wife. Detective Marshall testified in a police court to day that Watte offered him \$2,500 if he would induce the woman to come to Watte's flat, where he proposed to kill her by administering chloroform and then remove the odor of chloroform with perfume. Watte was remanded for trial on bail of \$3,000. The police found both chloroform and pepper in Watte's apartments.

BANK CLEARINGS.

New York, Aug. 18.—The total bank clearings compiled by Bradstreet's for the past week were \$2,403,571,604, increase of 23.3 per cent, as compared with the corresponding week last year.

KILLED BY NATIVES.

Berlin, Aug. 18.—A dispatch from the governor of German East Africa says native reports reaching Kilwa, announce that a Catholic bishop named Spies, two missionary brothers and two sisters were murdered by natives while traveling from Kilwa to Liwale.

ASKS AN ACCOUNTING.

New York, Aug. 18.—Action was brought in the United States court in this city to day by John W. Young, promoter of the former United States Shipbuilding company, demanding of the Mercantile Trust company of this city, an accounting of the securities of the shipbuilding company amounting to \$60,884,000.

IMPERIAL MANIFESTO.

St. Petersburg, Aug. 18.—It was announced to day that the imperial manifesto proclaiming the creation of a national representative assembly will be read in all churches and at meetings of the zemstovists and municipalities to morrow (Saturday).

ADJOURNED TILL TUESDAY

PEACE ENVOYS TAKE A RECESS.

Hold an All Day Session—Articles Passed Over Not Discussed—Thursday the Final Struggle May Come.

Portsmouth, N. H., Aug. 18.—At the afternoon session of the peace plenipotentiaries, article eleven, relating to limitation of Russia's sea power, was deferred. Article twelve, providing for the grant of fishing rights on the Russian littoral, was agreed upon. The articles which were passed over did not come up to day. The protocols will be drawn up during the three days' interim, and on Thursday the final struggle will come. The next sitting will be held at 3 p. m. Tuesday.

Black pessimism reigns at Portsmouth to night. The prevailing view is that the fate of the peace conference is already sealed; that it has ended in failure, and that all that now remains is for the plenipotentiaries to meet Tuesday, to which day they adjourned this afternoon upon completing the serialism consideration of the Japanese terms, sign the final protocol, go through the conventions and bid each other farewell. In other words, that the meeting Tuesday will be what a diplomat calls the "seance d'adieu." But there is still room for hope of compromise. Neither President Roosevelt nor the powers will see the chance of peace shipwrecked without final efforts, and that pressure is being exerted, especially at Tokio to induce Japan to moderate her terms beyond question. Just what is being done or is to be done has not transpired. King Edward is understood to be now lending a helping hand and the financiers of the world are known to be exerting all their influences. At Tokio and St. Petersburg the final issue will be decided. The Japanese have been implacable throughout the six days' sittings. They have listened and explained, but they have yielded not an iota of the substance of their original demands. M. Witte accepted outright seven of the twelve Japanese conditions, one in principle and four including the main issues, indemnity and Sakhalin, he rejected.

The other two, limitation of naval power and surrender of interned warships, might have been arranged had there been and prospect of an agreement on the two points upon which the divergence seemed irreconcilable. In the oral discussion of the terms Witte yielded upon two articles, but substantially the result of the thirteen sittings has only been to emphasize the position taken by Witte in the written reply he presented last Saturday to the Japanese terms. And now both sides turn to home for the last word before the cards are thrown face upward upon the table next Tuesday. It is the interim, such instructions are received by either side, compromise is yet possible. But the chances are recognized to be very slim. So far as the Russian plenipotentiaries are concerned, there never was a chance of their yielding both indemnity and Sakhalin. Cession of Sakhalin without indemnity was, according to the best inside information, the extreme limit to which Witte would ever consent to go and the emperor has not yet given the word even to concede that. To night suddenly a new factor has been introduced which in the opinion of those most competent to judge, lessens materially the chances that he might do so, namely, the issuance of his manifesto, granting a popular representative body to his subjects. The bearings of this "historic document," as Witte described it a few days ago, upon the issue are easily comprehensible. It is found to amollify the internal situation in Russia. It is the entering wedge for the realization of the century-old dream of the Russian people. The manifesto is Emperor Nicholas' answer to the Japanese demand for payment of war tribute. The grant of this broad reform is regarded as virtually an appeal to the Russian people for support to resist it.

At Tokio it is impossible to tell what view will be taken. Peace probably can be even now secured by sacrifice of the indemnity. Vague intimations to night come from the Japanese side that "the demand for the cost of the war" might be moderated, but Witte's reply is that he will pay liberally for the maintenance of Russian prisoners in Japan, but "not a kopeck for tribute."

The gravity of the situation from the Japanese point of view is contained in the following authoritative statement given to the Associated Press: "I cannot say positively, because all things are possible, but I fear the meeting Tuesday will be the farewell session of the Washington conference. Japan has done her utmost for peace. Russia now knows Japan's irreducible minimum."

Witte himself to night gave not the slightest encouragement. To night the situation can be summed up in a single sentence: Prompt and heroic action by outside influences alone can save the conference. The Associated Press is able to state that the reserved point in article seven to which an agreement was only reached "in principle," relates to establishing a

status both of Harbin from which the conceded branch of the Chinese Eastern railroad is to begin. Russia returned a negative reply to article ten (surrender of interned warships) on the ground that such a proceeding would be against all international law and precedent. On article eleven (limitation upon Russia's naval power) Witte declines to agree to allow such a provision to go into a treaty, but offered to state on behalf of his government that Russia had no intention of maintaining in the far east a naval force which would constitute a threat against Japan or any other power.

Portsmouth, N. H., Aug. 18.—At midnight Assistant Secretary Pelee was hurriedly called to the Hotel Wentworth, where a message was awaiting him from the president. He immediately wrote a lengthy reply. Later he was called to the telegraph instrument and for half an hour carried on a conversation by telegraph with the president, who was at the other end of the wire at Oyster Bay.

At 12:50 this morning (Saturday) the telegraphic conversation with the president ceased and Pelee left the hotel. He said he was going home, but beyond that declined to make any statement. "I can tell you nothing," he said to the anxious inquiries of newspaper men.

REPRESENTS JAPAN

Confidential Agent to This Country Sees the President.

Oyster Bay, N. Y., Aug. 18.—President Roosevelt's only visitor to day was Baron Kaneko, who studiously conceals his precise mission, but who is known to be a confidential representative in this country of the Japanese government. This was his fourth visit to the president within a few weeks and the second within a week. Reasons developed to day for the statement that Kaneko's call had relation to proceedings of the peace conference at Portsmouth, although it appears likewise reasonably certain he did not come as a representative of the Japanese envoys. He is known to be in direct communication with the Tokyo government. Whether he was the bearer of a message from Japan to the president is not known. The president and Kaneko had an extended conference, but nothing was disclosed concerning it, neither of the participants caring to make any statement about it. Kaneko left for New York to night.

IN FAVOR OF EIGHT HOURS.

Toronto, Canada, Aug. 18.—Amid great enthusiasm the report of the eight hour day committee, recommending that an eight hour work day be insisted upon beginning Jan. 1, 1906, was adopted by the International Typographical union to day.

KILLED THE BILL.

Havana, Cuba, Aug. 18.—The senate this evening administered a death blow to the rice bill, a measure that has been the subject of more discussion and more diplomatic representation than any other yet before the Cuban congress. The United States desired the passage of this bill and strong influence was used to get it through the Cuban congress.

WOMEN ON THE STAFF.

Boston, Aug. 18.—Commander-in-Chief King, of the Grand Army of the Republic, to day announced the appointment of three women to be honorary aides on his staff, at the national encampment next month in Denver, Colo. The appointees are: Mrs. Kate B. Sherwood, of Ohio, and Mrs. Sarah E. Fuller and Mrs. Elizabeth A. Turner, of Massachusetts, all of whom are past national presidents of the Woman's Relief corps. This is the first time that women will have served upon the staff of the commander-in-chief.

DROWNED.

St. Louis, Aug. 18.—While trying to rescue Frederick Churchill, who had waded beyond his depth when in bathing with a party of friends, Miss Stella McMullin, of Peoria, Mo., lost her life, and Churchill was also drowned before assistance could reach them.

AUTOMOBILE VICTIM.

Buffalo, N. Y., Aug. 18.—Webb Jay, of Cleveland, was probably fatally injured at Kentworth park to day in a ten-mile automobile race. At the three-quarters of the fourth miles Jay's machine crashed through a fence, down an embankment of fifteen feet and into a pond of water. Jay would have been drowned had not two spectators gone to his rescue and dragged him out. He was taken to a hospital, where it was found nine ribs were broken, one of his lungs punctured and his right femur fractured.

OFFICERS ELECED.

Denver, Colo., Aug. 18.—The grand aerio of Eagles to night elected the following officers Grand worthy president, Henry D. Davis, of Cleveland, Ohio; secretary, A. E. Partridge, Kansas City, Mo.

IMPORTANT MANIFESTO

RUSSIAN PEOPLE TO HAVE AN ASSEMBLY

Emperor Nicholas Announces the Granting of Elective Privileges for a Representative Body of the Empire

St. Petersburg, Aug. 18.—Emperor Nicholas to day (Saturday) announced the grant to the people of Russia of a national consultative assembly to be formed by elected representatives from the whole of Russia. The important manifesto is dated at Peterhof to day and is in part as follows:

"The empire of Russia is formed and strengthened by indissoluble solidarity of the emperor with the people, and of the people with the emperor. This concord of emperor and people is the great moral force which has created Russia in the course of centuries by protecting her from all misfortunes and all attacks, and has constituted up to the present time a pledge of unity, independence, integrity, material well-being and intellectual development. In our manifesto of Feb. 24, 1903, we called to a close understanding all faithful sons of the fatherland in order to protect the organization of the state by establishing on a firm basis the domestic life of the empire, and then we devoted ourselves to the task of co-ordinating elective public institutions with governmental authorities, and of removing disagreements existing between them which had reacted so disastrously on the normal course of our national life.

The autocratic emperors, our ancestors, constantly had that object in view and the time has come to follow out their good intentions and to summon an elected representation from the whole of Russia to take constant and active part in the elaboration of laws, thereby attaching to the higher state institutions a special consultative body entrusted with the preliminary elaboration and discussion of measures and with examination of the state budget.

"It is for this reason that, while preserving the fundamental law regarding autocratic power, we have deemed it well to form a gosudarstvennaya дума (lower house of assembly) and to approve regulations for elections to this дума, extending the validity of these laws to the whole territory of the empire, with such exceptions only as may be considered necessary in the case of some regions in which special conditions obtain.

"As regards participation in the labors of the gosudarstvennaya дума of Finland on the question concerning the empire in general and grand duchy in particular, we will take special measures.

"At the same time, we have ordered the minister of the interior to submit immediately for our approbation regulations for elections to the дума, so that deputies from fifty governments and from the military province of the Don may be able to assemble not later than the middle of January, 1906."

The emperor reserves the right to make changes in the national assembly when he deems them necessary, and expresses confidence that those elected as delegates to the assembly will prove themselves worthy of the confidence of the people.

The manifesto, ukase and project are published this morning (Saturday) in a special edition of the Official Messenger, in St. Petersburg and Moscow. They will be given out for publication at noon to all newspapers throughout the empire, many of which are preparing to issue extra editions to signalize the momentous historical event.

The national assembly will be a consultative organization in connection with the council of the empire and to a legislative body. The powers of the emperor remain theoretically absolute. As the emperor is the supreme law giver and autocrat, the decision of the дума will have only a recommendatory and not a binding force, though the rejection of any legislative measures by a two-thirds majority of both houses is sufficient to prevent that measure from becoming a law.

Representatives of the people will have not only the right to be heard on any legislation proposed by the government, but can also voice their desires on new laws and will have the right to exert certain supervision over the budgetary expenditures. Suffrage though wide, is not universal. It is based on property qualification, the peasantry having a vote through membership in communal organizations. A considerable portion of the residents of cities possessing no lands, together with women, soldiers, civil functionaries, etc., are without suffrage.

THE VICE PRESIDENT.

Rutland, Vt., Aug. 18.—Vice President and Mrs. Fairbanks arrived here to day to be the guests of Mayor Manning. This evening a public reception was given at which several thousand people were present. Vice President Fairbanks addressed the gathering, concluding his speech with the prediction that the negotiations at Portsmouth would result in peace.

AN INFERNAL MACHINE

A New York Banker Is the Receptant of a Death Dealing Contrivance.

New York, Aug. 18.—A supposed explosive machine was received to day by Jacob H. Hillebrith, of the firm of Kuhn, Loeb & Co., bankers, at the office of that company and turned over to the police for examination. The box contained matches, cotton and another substance supposed to be an explosive.

At first the police reported the affair was a joke, but further investigation by an expert revealed the presence of thirty-one grains of a high explosive powder and two 32-calibre loaded cartridges, arranged so as to fire the charge merely by ordinary handling. In the package was a cylinder of emery paper, lying in contact with the powder and several matches.

GRAND CIRCUIT RACES

Poughkeepsie, N. Y., Aug. 18.—The three heats of the 2:00 pace, one in 2:04 and the other in 2:04½, to day constituted the three fastest heats on the grand circuit this season. They also lowered the pacing record of the track.

For the third time this week the trotting race record of the track was broken, the new mark of 2:06½ being made by Tiverton in the free-for-all. This race, the most important of the meeting, brought out the grand circuit rivals, Tiverton and Sweet Marie, with George G. and McKinley. Tiverton won both heats, Sweet Marie breaking badly in the first heat in the back stretch and again in the second at the three-quarters. The events:

2:00 pace, best two in three; purse, \$1,000. (Four starters):
Baron Grattan 1 2 1
Frank York 2 3 2
Beat time—2:04½.

Beat time—2:06½.

GOLF CONTESTS.

Chicago, Aug. 18.—The finals in the Exmoor cup contest will be played to morrow between Chingman and E. C. Newton of Seattle, Wash., the latter to day having defeated E. B. Giles, the Pittsburg player, who disposed of Chandler Egan yesterday. Giles was outclassed and the Seattle man won an easy contest by 1 up, 3 to, to play.

CAR LOAD OF VICTIMS

MORE OF THE EXCURSION TRAIN DISASTER

Entire Number of Dead Not Yet Known—Scores in Hospitals—Divers Find Many Bodies in Sunken Cars.

Norfolk, Va., Aug. 18.—Up to 11 o'clock this morning there were only twelve known dead taken from the wreck of the Atlantic Coast Line railway excursion train. Though there are some eighty colored excursionists yet missing, the probability is that the bodies of many of these will be found in the bottom of the river after all dragging has been completed. There are some fifty-six or sixty of these 100 excursionists who have come to Norfolk either slightly injured or bruised. There are twenty-three injured at hospitals.

At noon divers went to the bottom of the river at the scene of the wreck and found a car load of dead men, women and children victims in the first car behind the engine. Some of the bodies went into the river when the end of the car dropped out as it was raised by derricks this morning.

Thirteen bodies have been recovered to date and the death list of the wreck on the Atlantic Coast Line railroad at Brice's Station is yet far from complete. It is said a score or so of bodies floated down with the tide when the first submerged car was raised, and that the other passenger coach, jammed with dead negroes, is buried in the mud of the western branch of the Elizabeth river. Estimates of the loss of life range anywhere from fifty to seventy-five and even as high as 100. Conductor Morris of the ill-fated train to day made a statement that there were but eighty passengers in the two forward coaches and that all those who were in the second coach have been taken out.

The removal to day of the two Atlantic Coast Line cars which plunged into the open draw at the Elizabeth river yesterday afternoon, revealed but two bodies in the first car, making the number of bodies recovered thirteen, with five persons missing. A careful examination of the bottom of the river showed no more bodies and the railroad officials are convinced that the death list is now complete, though reports are still current of a much heavier loss of life.

A FOUL DEED

Young Girl Murdered by Tramps—Perpetrators Escape—Other Crimes.

Augusta, Me., Aug. 18.—Mattie Hackett, aged 18, daughter of Levi J. Hackett, a farmer living fifteen miles northeast of this city, was murdered last night by men supposed to be tramps. Four men applied at the house for meat and while it was being prepared by his daughter, Hackett, accompanied by one of the strangers, went to the stable nearby to do some work. While there screams were heard, and running to the door Hackett found his daughter unconscious with a small cord drawn about her neck. Blood was pouring from a deep gash in her head. All the tramps escaped except one.

CALLED OFF.

St. Paul, Aug. 18.—The strike of the telegraphers on the Great Northern railway system was officially called off to night, the men on that line having voted by a large majority to return to work. The question of continuing the strike or returning to work is being voted upon by the Northern Pacific telegraphers, but up to midnight sufficient advices had not been received at headquarters to make a definite announcement as to the result.

PLEASANT OCCASION.

Mr. and Mrs. Arson Smith, of 540 Hooker street, were most pleasantly surprised Friday evening by the Ladies of the Macabees of Jacksonville Hike No. 140, the occasion being a pound party. Manuel Souza furnished a few excellent selections on his graphophone and the remainder of the evening was spent with games. Mrs. Smith received many presents which showed the esteem in which she is held by the ladies of the order. Delicious refreshments were served.

AT THE GRAND.

"Dora Thorne" was the offering at the Grand Friday evening and the play, dramatized from the well known novel by Bertha M. Clay, was given a good interpretation. The audience was small but appreciative and the piece gave eminent satisfaction. To night—"Girl of the Streets."

**Attorney General Stoad Gives
New Interpretation of Statute
Regarding Change of Venue—
Suicide at Roodhouse—Trag-
edy of Two Lives—Insect Pest.**

LEGAL INTERPRETATION.

Springfield—An interpretation of a sec-
tion of the Illinois statutes, that never
before has been passed upon will be of
interest to state's attorneys and law-
yers generally throughout the state. At-
torney General Stoad, in an opinion just
rendered, expresses the opinion that the
people are not entitled to a change of
venue in a preliminary hearing of a man
charged with a criminal offense. Prelim-
inary hearings are provided for under
a special statute, which provides that the
person under arrest may have a change
of venue.

The statute being silent with respect
to the people's rights, the attorney gen-
eral believes that the people cannot take
a change of venue in such cases. The
status of a preliminary hearing is simi-
lar to a grand jury inquisition and is not
a trial, hence there is no defendant and
no plaintiff.

In the same connection the attorney
general is of the opinion that the people
are entitled to a change of venue, under
the affidavit of the state's attorney, in a
proceeding before a justice of the peace
when the punishment is by fine only and
not to exceed \$200.

In another opinion Attorney General
Stoad interprets the law to mean that
if a justice of the peace issues a war-
rant for the arrest of a criminal and the
arrest does not take place until after the
justice's term of office has expired, the
case may be taken before another justice
or judge in the same county. Also, if a
criminal is fined \$1 and costs and pays
the dollar and not the costs, after an
execution is issued and a return made
"no property found" the defendant may be
arrested.

TRAGEDY OF TWO LIVES.

Joliet—Margaret Wilson, who deserted
her husband, Abram Cox, fifteen years
ago to elope with another man, has re-
turned to her old home here and been
reunited with her family, and it is said
that her remarriage to her former hus-
band will take place within a few days.
Mrs. Wilson's story, reads like fiction.
Married to Abram Cox when she was
only 16 years old against her own inclina-
tion and judgment, she was unable to
learn to love him, and after several years
of unhappiness, during which four chil-
dren were born to them, she fled with
Patrick Wilson and severed all ties with
her family.

Cox secured a divorce and remarried,
Wilson then married Mrs. Cox, but last
summer, yielding to the entreaties of his
eldest daughter by his first wife to re-
turn to care for his legitimate wife in
her old age, he deserted the former Mrs.
Cox.

A few days ago Mrs. Wilson, now aging
rapidly, returned to the scenes of her
girlhood. She visited the home of her
daughter, Mrs. Peter Ambrose, who al-
most fainted when she saw her mother.
Other members of the family were sent
for, and finally old Abram Cox, his sec-
ond wife long since dead, was induced to
see his first spouse. A reconciliation was
effected, and now it appears that the
tragedy of these two lives is to be righted
at last.

TO INVESTIGATE INSECT.

Litchfield—The state entomologist at Ur-
bana has been called upon to investigate
and advise some means of exterminating
the insect which has been doing so much
damage to the maple trees in this city and
vicinity.

Wednesday Richard Coffey captured
one of these insects which is not un-
like a large caterpillar. It was placed
in a bottle in the office of Mayor W. J.
King, and during the night completely
enveloped itself in a silky web, nearly
filling the bottle.

Mayor King will send the insect to the
state entomologist and request him to sug-
gest some manner in which the pest
might be destroyed.

COMMITTED SUICIDE.

Roodhouse—Mrs. Nettie Maddy, the el-
dest daughter of Mr. and Mrs. Henry
Morgan of Roodhouse, committed suicide
Thursday morning by taking carbolic
acid. She was about 20 years old, and
had been living with her parents for two
years past.

She was subject to violent moments of
temper and during these had frequently
threatened to take her life in the past,
but her threats have never been consid-
ered seriously by her family. She was
similarly indisposed Thursday morning,
and took the poison about 10 o'clock, ex-
piring shortly after noon.

Mrs. Maddy leaves one child, a daughter,
3 years old. She and her husband have
not been living together for two years.

INSANE INQUISITION.

In re Ervin Emmerson, cause re-
sumed. Plaintiff rests his case. De-
fendant at the close of petitioner's
case demurs to evidence and demur-
rer sustained and defendant discharged
and court orders each party to pay
his own costs.

DRY GOODS.

New York, Aug. 18.—In the dry
goods market to day country jobbers
and retailers, believing that the cot-
ton goods market would not hold at
the recent high level, became alarmed
at the severity of merchandises and
the increasing firmness of sellers.
More advances in bleached cotton and
single gingham were announced to-
day. Many lines were absolutely sold
up. The local jobbers did a record
trade in prints and gingham, as they
were selling at less than the prices
quoted by first hands.

GOLF NOTES.

In the relay contest last Thursday
afternoon ten players participated.
Scoutlock and Ledford tied for hon-
ors, each being 7 up against oppo-
nents. In playing off the tie first
hole was halved, second hole Led-
ford's ball found the brook and Scour-
lock winning the hole, won the
match.

over. The mules ran, quite a dis-
tance before they were stopped. The
damage to the wagon was slight.

were present and a most enjoyable
evening was spent with games, mu-
sic and dancing. Delicious refresh-
ments were served.

A NATURAL RESULT.

It is reasonable to suppose if the
foundation of a structure gives way,
the building is bound to come down.
This principle can be applied to dis-
ease. Take medicine that will remove
the cause of sickness, and a cure is
sure to follow. Dyspepsia, indiges-
tion, sick-headache and biliousness,
their foundation is stomach disorders.
Remove this weakness and the other
symptoms are no more. There is one
cure druggists sell for 25c per box. It
is Dr. Gunn's Improved Liver Pills.
One for a dose. They make the cure
by taking away the cause. Write to

CLEANLY WOMAN.

Cleanly woman has an erroneous idea
that by scouring the scalp, which re-
moves the dandruff scales, she is curing
the dandruff. She may wash her scalp
every day, and yet have dandruff her
life long, accompanied by falling hair,
too. The only way in the world to cure
dandruff is to kill the dandruff germ,
and there is no hair preparation that will
do this but Newbro's Herpicide. Herpi-

CROP CONDITIONS

**Situation in Illinois—Figures
Taken from Compilation Made
by State Agricultural Board**

The following information is gain-
ed from reports made to the state
board of agriculture by its cor-
respondents under date of August 1
on the yield and condition of crops:

WHEAT.

The area seeded to wheat for the
crop of 1905 was 1,401,354 acres, all
but 61,974 acres being winter wheat.
Three per cent of the entire wheat
area was winter killed or destroyed
by floods, leaving 1,447,762 acres of
wheat (spring and winter) for har-
vest.

The average yield per acre of 14
bushels is better than usual, the ten
year average yields for the state be-
ing 13 bushels. The total yield
amounted to 22,459,320 bushels. The
ruling price of wheat August 1 was
80 cents per bushel, the total val-
ue of the crop at this price being \$18,-
089,263.

OATS.

The area devoted to oats was slight-
ly increased over that of 1904, the
area harvested being 3,242,762 acres,
of which 1,848,494 is reported from
northern Illinois, 1,028,364 acres
from central Illinois and 365,904
acres from the southern division of
the state.

The total yield of oats for 1905 is
124,537,443 bushels, of which 76,617,-
232 bushels were produced in north-
ern Illinois, 39,188,054 in central Il-
linois and 8,732,157 in southern Illi-
nois.

The average yield per acre for the
state is 38 bushels, is five bushels bet-
ter per acre than the average for the
past ten years.

While the ruling price of oats Aug-
ust 1 was considerably less than last
year, being but 20 cents per bushel,
the total value of the crop at this
price is considerably more than
that of the 1904 crop. The quality
of the crop as a general rule is re-
ported good.

IIAY.

There is but little change in the
area devoted to meadows from year
to year, the area for 1905 being 2,-
518,799 acres, of which 1,042,242 acres
are reported from the northern di-
vision of the state, 837,095 from the
central and 639,456 acres from the
southern division of the state.

The average yield of one and one-
third tons of hay per acre is a little
better than that of 1904, as well as of
the ten year average of one and one-
fourth tons per acre.

The total yield of hay for 1905 is
3,390,174 tons and the average price
per ton on August 1 was \$6.45, mak-
ing the total value of the crop at
this price \$23,212,750.

CORN.

The August 1 reports on corn are
the most promising and are encourag-
ing for the largest corn crop ever
produced in Illinois.

The area reported of 7,743,361
acres is about the same as that of
1904. In northern Illinois the area
is reported as being 3,080,477 acres.
In central Illinois it is 3,419,442 and
in the southern division of the state
1,254,511 acres.

The August 1 condition of corn is
96 per cent of a seasonable average,
which is 10 points above the ten year
average of the crop on August 1 and
10 points above the June 20 condition,
when our last report was issued.

A number of counties on August 1
reported that corn was needing rain
badly and there was complaint from
a few counties of the grub worm
working the corn, but no serious dam-
age is believed to have been done.

PASTURES.

There is but little change in the
area devoted to pastures, the total
area for 1905 being 4,280,290 acres,
more than one-half of which is re-
ported from northern Illinois.

The August 1 condition of pastures
is reported as being 90 per cent of a
seasonable average, being 97 per cent
in northern Illinois, 91 per cent in
central and 97 per cent in the
southern division of the state and
an increase of 1 per cent over the
June 20 condition.

The average condition on August 1
of pastures for the past ten years
being 85 per cent of a seasonable
average.

KISSED BY WITTE.

**Peace Envoy Embraced Conductor
Because He Spoke French.**
"No one could have been more sur-
prised than I was when M. Bergin
Witte threw his arms about me and
kissed me on the cheek," said Con-
ductor E. P. Therien, who had the dis-
tinction of having received this Eu-
ropean salutation from Russia's en-
voy extraordinary to the peace confer-
ence a few days ago, says a Boston
dispatch to the New York American.

Conductor Therien is himself a Eu-
ropean—a Frenchman. As an em-
ployee of the New York, New Haven
and Hartford railroad, he had had
charge of the special train which
transported the distinguished foreigner
from Newport to Boston, after he had
been induced to leave the Mayflower
and go overland to Portsmouth. While
relating the details of the incident re-
cently he said:

"It is the custom in Europe for men
to salute each other by kissing, al-
though in this country it appears
strange. I must say that I was sur-
prised, but it was all right. It was
M. Witte's manner of showing his ap-
preciation for the courtesies extended
to him during his first ride on an
American railroad.

"All during the run from Newport
to Boston the members of the party
conversed in French. I am a French-
man myself and understood all that
was said perfectly. In fact, I talked
with members of the party during the
trip, though not with M. Witte. You
can imagine my surprise then, when,
upon reaching Boston, the big Russian
smacked me full on the cheek.

"I did not know what to do for a
moment. The situation embarrassed
me. I have been among Americans so
long that I have almost forgotten Eu-
ropean customs. When I realized,however, the sincerity with which the
salutation had been given by the Rus-
sian nobleman I felt greatly honored.
You see, it all happened in this way:

"When we stopped at Back Bay M.
Witte did not follow the other mem-
bers of the party to the elevator, but
strode off in the direction of the en-
gine. When he reached the cab he mo-
tioned to Engineer J. E. Magoun and
put his hand out for a handshake.
Magoun leaned out of his cab and the
two men shook hands. The fireman
was honored in the same way.

"As M. Witte turned to join his
party I touched him on the elbow to
direct him to the elevator, and spoke
to him in French. It was then that
he threw open his arms, and, with a
heartily embrace, kissed me on the
cheek."

Conductor Therien is very popular
on the Newport line. He has a wife,
who says she does not care how many
men kiss her husband.

What Have You Done?

You are going to do great things, you
say.
But what have you done?
You are going to win in a splendid way.
As others have won.
You have plans, that when they are put
in force.
Will make you sublime.
You have mapped out a glorious upward
course.
But why don't you climb?
You're not quite ready to buy, you say.
If you hope to win.
The time to be starting is now—to day.
Don't delay, begin.
No man has ever been ready as yet.
Nor ever will be.
You may fail ere you reach where your
hopes are set.
But try and see.

You are going to buy a piano, you say.
On the installment plan.
Your dreams are all right, but too far
away.
Don't be so slow Man.
For the world, when it judges the case
for you.
At the end, my son,
Will not think of what you are going to
do.
But of what you have done.

that the Dr. Howard Company has
had such wonderful success from the
introductory plan he suggested of
selling their 60-dose package for 25c,
that they have decided to establish
it as their regular price and he
will continue to sell a month's treat-
ment (60 doses of their Specific for
the cure of constipation and dyspep-
sia) for 25 cents.The two diseases that this remedy
will cure, undoubtedly cause more
sickness and suffering than all of the
other ills to which flesh is heir. Dr.
Howard realized this, the same as
most physicians and druggists; but
he went a step farther, he discovered
a cure. He found a happy combina-
tion of harmless ingredients that will
cure all diseases of the stomach and
bowels. This remedy is not a "cure-
all." We do not recommend it for
corns or toothache, but we do ask
any sufferer from constipation or in-
digestion to let us sell them 60 doses
of Dr. Howard's Specific for 25 cents,
with the understanding that if it
does not cure, the medicine will cost
absolutely nothing. This is the fair-
est offer we can make.

It would seem that the reciprocity advocates had moved into the king row on the tariff checker board. It is the stand patters' next move.

We have now heard authoritatively regarding the number killed by the railroad but the report on the auto is not in yet.

In reply to critics the mayor of Atlantic City declared he did not "care a continental whether the women bathers wore a skirt or a ruffe" but the limit was reached when some Igorrotes, wards of Uncle Sam, appeared on the beach clad in a grin and breechcloth and the Filipinos were ordered to get up and get and they got.

How is this for putting on the lid. At Mt. Vernon, N. Y., "Roosters are forbidden to crow, dogs to bark, bells to be tolled, or engines to toot their whistles between 10 at night and 6 o'clock in the morning." Here is a case of preserving the dignity and peace of the commonwealth with a vengeance.

Mayor Weaver of Philadelphia is in the time light again. The ring has decided to take a hand in things again and intend to make a thorough investigation through a committee of plenary powers to see if the mayor has "come clean."

The company of the celestial is not valuable and can easily be dispensed with, but when it comes to his trade that is another question. At last the Chinese have found an argument that may prove convincing enough to let down the bars.

If revelations continue New Orleans will soon be a rival of Pompeii. Eighteen inches of filth were removed from one the thoroughfares over which a great deal of discussion had arisen regarding a pavement. When the depth of eighteen inches was reached a cedar block pavement, in good state of preservation was found. Comment is unnecessary.

The delegates to the Trans-Mississippi congress rebelled after five hours speech making and declared they wanted more business and less talking. The average convention, whether state, sectional or national, is run for the glorification of the powers that be and to exploit some man or men whose ideas have been compiled from an encyclopedia with originality in thought woefully lacking. The delegate assembly where the delegates do the talking is the assembly that meets for a purpose and when its deliberations are over the results are tangible. The average convention is over done with hot air.

The silence has been broken. M. de Martens has found opportunity for utterance. He declares there is no precedent in history for the indignity asked for by Japan, and in language less epigrammatic states the doctrine of Charles Pickney "Millions for defense, but not one cent for tribute." The Russian envoys asked that M. de Martens be permitted to sit in the sessions of the conference but to this demand the Japanese denounced and the eminent scholar and distinguished authority on international law has been hard to classify. His position was too eminent to term him an attaché and it was considered that the term secretary was also inapplicable and since the sessions of the conference he has been so to speak, outside the brentworks. He declares that "Japan has no eye" and "no country has ever been asked to pay indemnity unless a large portion of her territory is in possession of the opposing power and the defeated nation is unable to confront the enemy on the field. Russia is not a prostrate enemy begging for peace." No, she is not prostrate now, but she may be if the differences under discussion at Portsmouth are not adjusted on an amicable basis.

PRODUCTION OF COKE IN 1904.
Including the production of coke from by-product retort ovens, which in 1904 amounted to 2,008,228 short tons, the total output of the coke ovens of the United States was last year according to the report made by the United States geological survey by Mr. Edward W. Parker, 23,621,530 short tons, against 23,274,331 short tons in 1903. The decrease in 1904 as compared with the preceding year was 1,652,761 short tons, or 6.54 per cent. The total value of the product declined in 1904 greater proportion from \$95,498,061 in 1903 to \$46,025,837, a decrease of \$20,472,481, or 21 per cent.

"The decline in production was a natural one," says Mr. Parker, "due to a slump in the iron trade during the summer months, which was in turn caused for the most part by the unsettled conditions that usually attend a presidential campaign. And while these conditions also affected prices, the great difference

between the values of the production in 1904 and in 1903 was due to abnormally high prices which prevailed in the early part of 1903, when because of the fuel famine, induced by the anthracite strike of the preceding year, manufacturers of coke were enabled to obtain almost any figure they might demand. The average price for all the coke made and sold in 1904 was only 9 cents less than in 1901, and was higher than that of any year from 1893 to 1899, inclusive.

At the close of 1904 there were under construction 4,430 new ovens, of which 832, or 18.8 per cent were of the retort or by-product type.

The number of completed retort ovens has increased from 1,105 in 1901 to 1,653 in 1902; to 1,956 in 1903, and to 2,910 in the year of 1904. The output from retort ovens has increased from 1,170,000 tons in 1901, to 1,405,588 tons in 1902; to 1,882,294 tons in 1903, and to 2,008,228 tons in 1904. In 1902 5.5 per cent of the total output was from by-product ovens; in 1903 the by-product coke was 7.4 per cent of the total; in 1904 the by-product coke made up 11 per cent of the total output.

Counting each bank of ovens as a separate establishment, the returns for 1904 show a total of 606 establishments, as compared with 500 in 1903. Eighty-two establishments were idle throughout 1904, as compared with 41 idle plants in 1903. There were also ten new establishments with a total of 1,205 ovens which were not completed and put in blast at the close of 1904.

Mr. Parker's report is published as an extract from the forthcoming volume, "Mineral Resources of the United States, 1904." It may be obtained on application to the director of the United States geological survey, Washington, D. C.

DEATH RECORD

HEIGOLD.
D. E. Kennedy received a telegram Friday, announcing the death of Wier Heigold, the 17-year-old son of Mr. and Mrs. George Heigold, Sr., at the family residence in Los Angeles, Calif. He is survived by his parents and two brothers, George, Jr., and Carl, all residing in California. The deceased is a relative of Mr. Kennedy's and has a host of friends here who will regret to learn of his demise.

NAPLES HISTORY.

"There were three or four stores here in 1835, Walcott & Wilkinson's store; Taddin Davis' store, also John Manchester and A. M. & F. Collins' store. Naples at that time was the principal shipping point between Peoria and Alton, nearly all the goods for Springfield and Jacksonville were loaded here, also for Winchester. This was the shipping point for all the pork and grain from Springfield and Jacksonville came here for shipment. All freight was hauled in wagons here, pork was in barrels, hams, shoulders and sides were shipped loose and hauled like cord wood.

New Orleans boats came here delivering their cargo of molasses and sugar in hogheads, loading with pork and grain for New Orleans. Steamboats were numerous at that time. We have counted as many as eighteen boats pass in a day.

The first rail or track road was commenced here in 1837, by Charles Collins and Marion Leslie of St. Louis, and Mr. Griswold of New York and track was graded as far out as the slough. Mr. Samuel Crawford would not give the right of way, and there the work of grading stopped.

About that time the state of Illinois entered into the great railroad scheme and swallowed up the Sangamon and Morgan railroads. Naples became a branch of the state railroad, and the first railroad engine in Illinois was set up and started here. Mr. Newell was the engineer. The engine was called "The Pioneer."

In the year of 1890, Mr. Kennedy Lodwick located here with a stock of goods. Mr. P. D. Critzer came also as a clerk, and finally married Miss Matilda Lodwick. Mr. Joshua Moore came about the same time from Philadelphia with a stock of goods, made money and moved to Perry, Pike Co. All dry good were very high. Common muslin was 10c; dress prints, 25c; woolen goods, such as satinettes and jeans, 75c, to \$1.00 per yard. Groceries were cheaper. Common tea cups and saucers were worth 25c to 30c per set; boots and shoes about the same as now; wheat 85c to \$1.00, corn 20c, pork 3.00 to \$3.50 per hoghead. Mechanics' wages were \$1.25 to \$1.50 per day, and day laborers' wages were 75c.

During the year 1843, in June, a terrible tornado passed over the upper portion of the town on a Sabbath afternoon, and blew down ten houses, including the Presbyterian church. No lives were lost.

In the year 1844, came the great flood, overflowing nearly all the bottom land from Peoria to St. Louis, destroying all crops. The flood was at the highest point July 4. There was a vast deal of suffering, besides the loss of crops and property. The water was from 3 to 5 feet deep. Steamboats could run out in the town. The river was about eight miles wide at this point.

In 1847 Mr. N. M. Knapp published the first newspaper in Naples, called the "Spirit of the West," and John Moses helped set type for the paper. About the years 1845 to 1846 T. & F. Keener commenced the grain business, and later on commenced packing pork and also in the lumber business, and were very successful. John Linkins in Bluffs Times.

Mr. E. B. Hamilton, of Quincy, is visiting with her daughter, Mrs. Allen F. Ayers in this city.

DECATUR GOES TO SPRINGFIELD

Slater City Refuses to Reciprocate in Matter of Courtesy and Will Not Send Delegation Here on Labor Day.

Jacksonville labor leaders anxiously awaited word from Decatur Friday regarding the action of the Decatur unions on the question of coming to this city or Springfield on Labor day. The matter was to be decided Thursday evening. No word had been received officially last evening, but the following taken from the Springfield News, indicates that the Decatur delegation will march in Jacksonville at Springfield instead of in Jacksonville. This city sent a strong delegation over to Decatur two years ago and the local leaders had every reason to expect that the courtesy would be returned. The following is the account taken from the News:

"John Staples, president of the local Federation of Labor, and Robert Byron, Jr., attended the meeting of the Decatur Federation Thursday evening to urge the labor unions of that city to vote to come to Springfield to celebrate Labor day. The meeting was held to reconsider the decision that was taken some time ago to go to Jacksonville to celebrate.

"By an overwhelming vote the unionists decided to come here. No arrangements were completed concerning the route that is to be taken, but a committee was appointed to arrange for transportation either over the interurban or the Vauhatch. The Federation had at first intended to go to Jacksonville, but because the Jacksonville Federation refused to employ a band from Decatur they reconsidered the vote.

"There will be between 1,500 and 2,000 people from Decatur and the delegation will be headed by Goodman's band."

FUNERALS

MOORE.
The funeral of the little child of Mr. and Mrs. David Moore was conducted from the residence on Hooker street Friday afternoon at 2 o'clock, in charge of Rev. Guy B. Williamson. A quartet composed of Miss Cova Graham, Mrs. Joy Green, C. L. Mathis and C. L. Hayden sang appropriate selections.

At the conclusion of the services the remains were borne to Jacksonville cemetery for interment. The bearers were Mary Slogne, Elizabeth Stoenne, Mary Leary and Agnes Shields.

NOUDET.

The funeral of Sybil Matilda Noudett, infant child of Mr. and Mrs. Herman Noudett, was held at the residence on East college avenue, Friday afternoon, at 3 o'clock. The services were in charge of Dr. W. F. Short and were of a character in keeping with the sad occasion.

Appropriate music was furnished by Mrs. English, Miss Arenz and T. H. Rapp. The bearers were Corinne Carlson, Laura Stranberg, Lottie Sweeney and Grace McCarty. Interment was in Jacksonville cemetery.

MOTHER'S FRIEND

does diminish the pain accompanying maternity. With its aid mothers can and do bring healthy, sweet dispositioned and ideal babies into the world. Morning sickness, sore breasts and excruciating pains caused by the gradually expanding organs, are relieved by this penetrating and relaxing liniment. Among the manifold aids to childbirth Mother's Friend has grown in popularity and gained a prestige among rich women as well as poor; it is found and welcomed in the mansion as well as in the cabin. By lessening the mother's agony of mind and diminishing pain a beautiful influence is wrought upon the child, and instead of peevish, ill-tempered and sickly forms you have healthy, laughing humanity, remaining a blessing ever to you and its country. RAILROAD NEWS NOTES

New Agent for C. P. & St. L. Will Assume Duties Sept. 1.—Order of Locomotive Firemen is in Prosperous Condition—Items of Interest and Personal Mention.

Low Selby, the new C. P. & St. L. agent, removed his household goods from Athens to this city Friday. He will reside on Hardin avenue in the house recently vacated by George Holliday. Mr. Selby expects to take charge of his new position on Sept. 1. C. J. Bradac, the present agent, will remain in the city for several days after Mr. Selby arrives and will then go to Petersburg to take up his work.

—(c)—

The board of trustees of the national Brotherhood of Locomotive Firemen have been in session in Peoria auditing its accounts and Thursday afternoon stated that the year ending June 31 had been one of unusual prosperity. Receipts for the year were \$1,100,816.86, a marked increase over the receipts of last year, while the expenditures have been increased only \$1,800. The brotherhood has now a membership of 55,225, an increase of 5 per cent over last year and during the fiscal year the sum of \$10,250 has been paid out in death and disability benefits, and \$64,700 for benefits for which the fund was raised by special assessments. Friday at noon the board left for Indianapolis to audit the accounts of the magazine published there in the interests of the brotherhood.

—(c)—

For some time it has been rumored that some sweeping changes were to be made along the Burlington right of way near Abingdon and it has at last been ascertained that the rumor has some basis in fact. The grade at Abingdon will be cut some ten or fifteen feet, lowering it to the level of the track at the bottom of the grade. Abingdon stands on a hill and the grade is a long one both north and south of that point, making the pull a heavy one for the long freights. The changes as planned make the undertaking a great one, necessitating the employment of an army of men and the expenditure of thousands of dollars.

—(c)—

Albert Williams, of Baltimore, general passenger agent of the B. & O. railroad, spent Thursday in the city.

—(c)—

A force of carpenters are now engaged in rebuilding the bridge over the Apple creek between Waverly and Franklin. The estimated cost of the work is \$3,600 and will take about three months to complete it.

—(c)—

Ben H. Helm, division freight agent for the Alton at Bloomington, was in the city Friday.

—(c)—

The Wabash "Y" near the junction was being repaired Friday by the Alton section hands under Foreman Flynn.

—(c)—

Coach No. 46 is running on the C. P. & St. L. passenger, after undergoing a complete overhauling at the shops.

—(c)—

James Green, brakeman of the local C. P. & St. L. passenger, went to Springfield Friday to take an examination. J. Rodrick of the main line substituted.

—(c)—

C. J. Rohwitz has been appointed traveling passenger agent for the Burlington, with headquarters in St. Louis, vice C. B. Ogle, transferred.

—(c)—

J. Normile repaired the safety valve on the fire connection at the Alton passenger station Friday.

—(c)—

A gang of Alton men from Bloomington are engaged in tiling the Wright stock yards north of the city.

SPRINGFIELD

PIONEER DEAD

Roland W. Diller Passed Away Thursday—Was Brother of Mrs. A. E. Ayers of This City—Knew All of the Great Men—Intimate Friend of Lincoln and Douglas.

Springfield News—Peacefully as a child falling to sleep, Roland W. Diller, one of Springfield's oldest and best known citizens, passed away this morning at the home of his daughter, Mrs. D. B. Ayers, on South Seventh street, at the ripe age of 83 years. Mr. Diller had been gradually failing for some years. The news of the death of Mr. Diller spread fast throughout the city, where he was known to nearly everybody, and many expressions of regret and sympathy were promptly received by the family.

The funeral will take place Sunday afternoon and the services will be held at the First Presbyterian church in which he has for many years held a prominent position as an elder.

Mr. Diller is survived by his son, Isaac R. Diller, and his daughters, Mrs. D. B. Ayers and Mrs. Walter Ryan of this city, and also by his sisters, Mrs. Susanah Davis of Sterling, Ill., who recently celebrated her 90th birthday; Mrs. Annie E. Ayers of Jacksonville, and two half sisters, Misses Sarah E. Ross and Fannie E. Rees of Downingtown, Pa.

For sixty years Roland Weaver Diller has been a prominent resident of Springfield. For many years he was a representative of the business interests of the city, conducting a drug store on the east side of the square.

Mr. Diller was born Oct. 5, 1822, in Downingtown, Chester county, Pennsylvania, and was the son of Jonathan and Anna Diller. In the fall of 1844 Mr. Diller left the east and started for Springfield, Ill., where his sister, Maria, lived, and who was married in 1841 to R. F. Ruth. Mr. Diller left Philadelphia on the 8th of November, proceeding by the way of the Pennsylvania railroad to Harrisburg, then came to Pittsburg, down the Ohio river to Cairo and up the Mississippi to St. Louis, whence he proceeded across the country by stage to Springfield. The last part of his journey consumed two days, while the entire trip covered sixteen days. He has known most of the famous men who have at one time or another assembled in Springfield. His store has been largely the headquarters of political leaders of both parties and he enjoyed the personal friendship of both Stephen A. Douglas and Abraham Lincoln. Few men have longer resided in Springfield than Mr. Diller, whose memory forms a connecting link between the primitive past and the progressive present. Events which are to most of us a matter of history to be learned from written records have come within his experience and were to him matters of memory. Through his long years of residence here he has ever been deeply interested in the welfare of the city, co-operating in many movements for the general good, and, as a man of honor, straightforward in business, loyal in friendship and sincere in his Christianity, Mr. Diller has made a life record well worthy of emulation.

Sacred Concert at Nichols park Sunday afternoon, 3 to 6 o'clock. Jeffries' Band.

ENJOYABLE EVENING.

A very pleasant company was the one given Friday evening at the home of Will Davis, northeast of the city, in honor of Miss Pearl and Roy Schaffer, of Philadelphia, who are guests at the Davis home. About forty-five guests were present, and a very enjoyable evening was spent with games and other amusements. Some excellent music also assisted in making the evening a pleasant one.

You Never Know the Moment When this Information May Prove of Infinite Value.

It is worth considerable to any citizen of Jacksonville to know how to be cured of painful, annoying and itching piles. Know then that Doan's Ointment is a positive remedy for all itching of the skin, for piles, eczema, etc. One application relieves and soothes. Read this testimony of its merit:

George Carter, of 213 North Caldwell street, says: "I can with pleasure recommend Doan's Ointment to any one troubled in any way with an irritation of the skin. Ever after I had an attack of fever I had a severe irritation of my scalp and medical treatment, though persisted in, did not remove it. In fact, did not help it. I saw Doan's Ointment do highly recommended that, acting on the advice, I procured a box from Dr. H. Lee Hatch's drug store. I used it as directed and a few applications were sufficient to entirely relieve me."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—DOAN'S—and take no other.

AN ODD REUNION.

Kidnaped twenty years ago by his nurse, James M. Leydon, formerly a driver for the Adams Express company in Chicago, found his father while standing in front of the postoffice at Aurora. Leydon learned some time ago from friends at Aurora that the name "Sly," by which he was known, was not his right name, and satisfied that he had been the victim of a kidnapping plot, he determined to find his parents. He consulted the city directory of Aurora and tramped the streets for a week, when he saw an aged man enter the Aurora postoffice. A gleam of recognition passed between them, and the elder Leydon then explained how he had placed his son in the family of Mr. and Mrs. John Sly of Aurora, who had afterward disappeared with the boy. James went home with his father and there found his brothers and sisters. Then he learned that he had lived for twenty years within forty miles of his kin.—Milwaukee Wisconsin.

Two Pussy Windsor Stories.

Pussy Windsor was a well known character in Duxbury and vicinity twenty years ago. He won his sobriquet of "Pussy" when he was a member of a crew on board a fishing smack. On being ordered by the captain to cut a hole in the cabin to make an exit for the cat he obeyed orders by cutting two holes, a large and a small one. When the captain asked him what the small hole was for he replied, "Waal, I thought if the cat was going to have a hole there ought to be one for the kitten."

One day on this voyage a porpoise was caught and hauled on board, and there was some talk among the sailors of its resemblance to a human being. Pussy Windsor studied the features of the porpoise intently for several minutes and then said in a tone which utterly scouted the idea of such resemblance: "Huh! He don't look no more like a human being than I do."—Boston Herald.

MASTERS' SHOERS BANQUET

Held at Red Men's Hall--Address by F. E. Baldwin--Others Who Spoke--Officers of the Organization.

The second annual banquet of the Master Horse Shoers' Protective Association of America No. 350, was held in the Red Men's hall on South Sandy street Friday evening. A large number of the members and their families were present and the occasion proved to be a most enjoyable one.

W. H. Anderson, president of the association, acted most ably as chairman of the evening. F. E. Baldwin made a brilliant address on "Organized Labor," and told of its many benefits. Harry Hopper, George V. Skinner, F. C. McDougall, James Seaver and Cupid Mosley, of the Masters' association, made addresses on the labor question. The Journeymen Horse Shoers' Union No. 492 was well represented and addresses were made by P. J. Meany, Otis Cruse and Edward Hopper.

Cupid Mosley entertained the audience with several of his inimitable songs.

An excellent musical program was given by Misses Ethel Anderson, Nellie Anderson and Mable Skinner, which added much to the pleasure of the occasion. Misses Nellie Anderson, Zella Cruse and Ethel Anderson had charge of the refreshments and were assisted by James Seaver and George V. Skinner.

The local association was organized Feb. 26, 1901, and since that time its membership has increased greatly. The work is now extending throughout the entire county and greater results are expected in the near future. The national organization has set aside the second Saturday in August as a legal holiday and all blacksmiths throughout the United States are expected to refrain from work on that day. This day was set aside in order to bring the masters and employees into closer relationship and establish a better feeling between them. The local organization cannot observe Saturday on account of the increased business which is brought to the city on that day and therefore observed last evening as the holiday. The present officers of the organization are:

President--W. H. Anderson.
Vice president--G. V. Skinner.
Secretary--James Seaver.
Treasurer--F. C. McDougall.
Corresponding secretary--John Hall.

COHEN WILL APPEAL CASE

To Remain in Jail Until Decision Is Reached by Higher Court.

Thursday morning in the United States court at Springfield proceedings were begun to appeal the case of Jacob Cohen, now in jail there for failing to produce the \$55,000 as he was ordered to do by the court, for the benefit of his creditors. Owing to the great mass of papers in the case, the hearing on the appeal will probably consume some weeks. Until the rehearing of the case by the United States court of appeals in Chicago, Cohen must remain in jail. The case will be taken up on a writ of error. It is said that relatives of Cohen raised the necessary amount of money.

CIGARETTE LAW OF INDIANA

Plays Havoc With Circus Employees--Threaten to Jump Their Contracts Unless Free to Puff the Cigarette.

Shelbyville, Ind., Aug. 18.--There was consternation in the camp of the foreigners and Indians with a circus here to day over the order of the owner that the men and women should comply with the Indiana cigarette law and cease smoking while in the state. Many of the men are under contract to remain with the circus until the close of the season.

So desperate are some of them for their cigarettes that they threaten to jump their contracts and go to other states, where they can be free to smoke anything they please.

A meeting was held this morning and speeches were made protesting against the law. Finally it was decided to make a direct appeal to Governor Hanly, and the following message was sent:

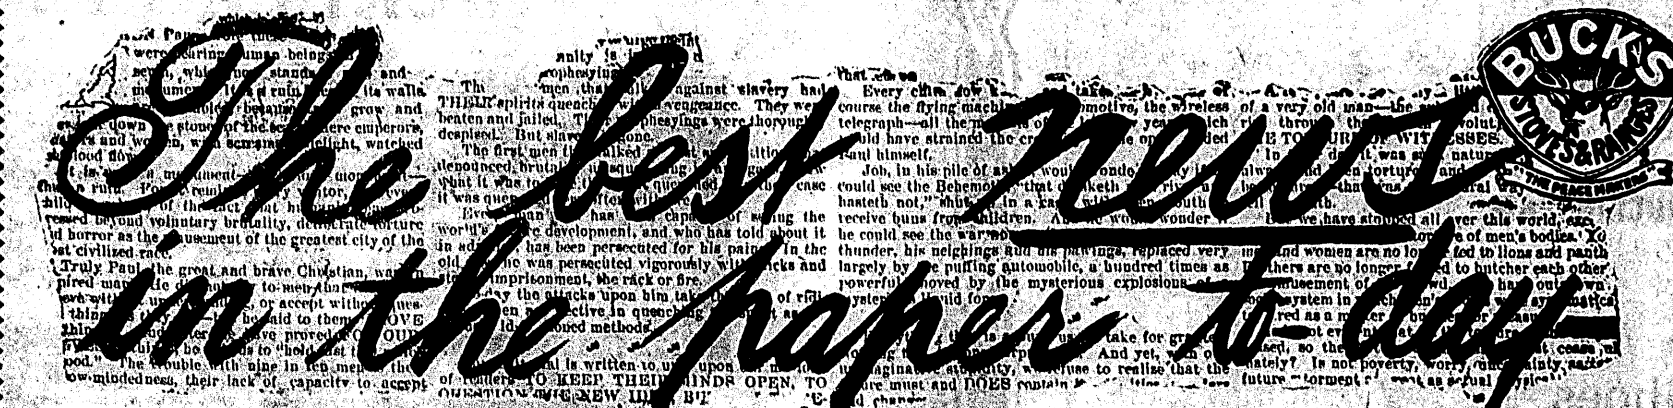

Governor J. Frank Hanly, Indianapolis, Ind.: The Turks, Egyptians, Japanese, Hindoos and Indians with a circus here have been deprived of cigarettes. What shall we do? We ask protection. CHIEF IRON BIRD.

At 4 o'clock this afternoon they were standing around in groups awaiting the governor's answer. To night another meeting was held and as the owner of the show insists that the laws of Indiana shall not be violated the foreigners served formal notice on him through an interpreter, Iron Bird, that unless they are permitted to smoke cigarettes they would quit the show so long as it remains in Indiana.

Governor Hanly has made no reply to their request for protection in their pursuit of happiness.
